

Our Core Christian Values

At Whitchurch CE Primary School we have chosen the following values as core to our school ethos. They are the means for ensuring a happy and secure experience within our school community.

Love

Love is a core value in our school because God is love and Jesus taught us to love our neighbours as ourselves. Love underpins how we treat others equally in our school – regardless of who they are. It leads how we view our relationship with the world. Through an understanding of Christian Love we encourage the children and ourselves to put others before ourselves and to learn and practice friendship, compassion, forgiveness, tolerance and reconciliation.

Courage

Courage is a distinctively Christian value for our school because Christians are taught to stand up for what is right and what they believe. Jesus is the ultimate example of this in his teaching and sacrifice. In learning about Jesus and others we want to begin a lifelong process of challenging the children and ourselves to be the best that we can be and to be resilient in the face of difficulties.

Respect

Respect is one of our Christian school core values which include self-respect, respect for each other, the wider community and the world. This value embraces individual differences and similarities within school and community. We will learn to celebrate these differences while rejoicing in our similarities. We remember to treat others the way we would want others to treat us.
